

EDUCATION SOLUTION
CTOUCH RIVA

THE POWER OF TOUCH

The CTOUCH Riva is a super user-friendly touchscreen that brings the power of touch in any learning environment. Easily share your content on the big screen, write the smartest ideas on the interactive whiteboard and inspire everyone in the room. For teachers and students alike.

Share, inspire, have fun!
With CTOUCH by your side.

CTOUCH[®]

EDUCATION SOLUTION CTOUCH RIVA

✔ **Super user-friendly interface: one touch & go!**

Everyone can do the job! It's as easy as using your phone or tablet! At the touch of a button you have access to all options on the screen, making your life so much easier. The CTOUCH Riva allows you to use your own software, as you are used to. No worries! This frees up your mind to fully focus on creating inspiring and interactive classes.

✔ **Share content wirelessly with any device**

Tell your students to BYOD (bring your own device). Encourage them to share their work on the big screen via EShare. Or push the content from the display to other devices in the classroom. Knowledge sharing has never been easier. It works with Android, Windows, Mac and Chrome devices. You provide a steady internet connection, we provide the rest.

✔ **State-of-the-art Android technology**

The CTOUCH Operating System (COS™) of the Riva is based on Android 8. Use functionalities like split-screen to work on different content. And control your display settings depending on your own wishes. Hide or lock settings, or even lock down the Android source. It's up to you!

✔ **Control your display from one central point**

Attention to IT support and administrators! The CTOUCH Riva comes with Radix Viso Mobile Device Management (5-year license). This allows you to control, upgrade, check and view your display over distance. You will no longer have to update settings, push or delete apps screen by screen. Just keep sitting in your chair and control them from there.

✔ **Easy to use pre-installed apps**

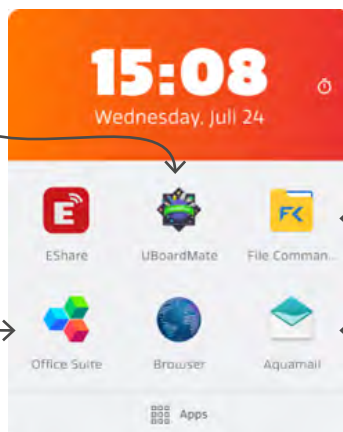

The CTOUCH Riva comes with carefully selected pre-installed apps. You're ready to go, right from the start. In addition, you're free to add other apps you need via the CTOUCH app store.

UBoardMate

- The next level whiteboard app to visualise your thoughts
- Use all kinds of pens, colours, lines and shapes
- Save and share your content with your class

OfficeSuite

- The Office app to get your work done
- Open, edit, save and share Word, Excel, PowerPoint and PDF-files on your screen
- No need of an external computer

File Commander

- The file manager app to help you organise your files
- Share your files through FTP or in your local network
- Connect your cloud account, like Dropbox, Microsoft One Drive or Google Drive

Aqua Mail

- The all-in-one email app to access and send your own emails directly from the screen
- Works with multiple email providers and accounts
