## BUSINESS SOLUTION CTOUCH BRIX: FOR TEAMS GO

### Videoconferencing with a touchscreen: Say hello to hybrid working!

Add an interactive dimension to your videoconference with a touchscreen. Launch your Microsoft Teams, Zoom, Pexip or any other frequently used videoconference application directly from the menu. Stand up, work actively together as a team and bring ideas into reality in a collaborative setting.

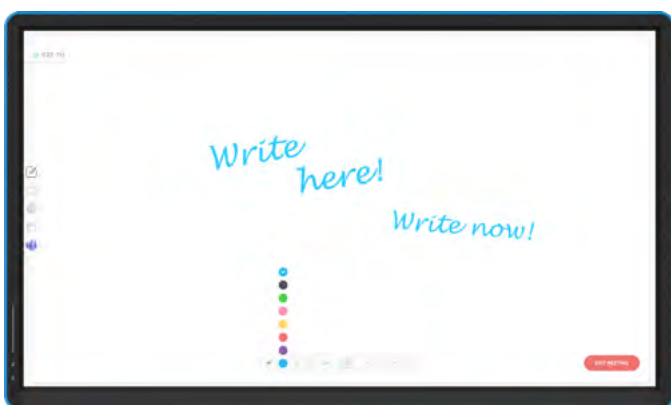

### Teamwork done right: with touch and tools

Dozens of team collaboration tools, such as Miro, Monday and Jira are optimized for touchscreens. This improves teams' efficiency and productivity. With the CTOUCH For Teams Go, you can easily access these applications from the touchscreen's whiteboarding menu, turning your meeting rooms in advanced collaboration workplaces.

### Advanced whiteboard at your disposal

Whether you are writing with a pen or with your fingertips, the CTOUCH For Teams Go whiteboard is as intuitive as it can be. Featuring the most essential drawing tools, virtual laser pointer, redo and undo options and many more functions. Having an inspiring meeting is literally in your own hands. And when your session is over, easily share your work via USB, mail or even via Teams.

#### A rock solid, futureproof BRIX solution

The CTOUCH For Teams Go is a budget-friendly modular BRIX solution that can be upgraded over time. Combine it with a CTOUCH touchscreen and you're ready for full collaboration. No worries when your needs change. Simply upgrade your BRIX module and you're set to go, without replacing the entire touchscreen. 100% futureproof.
